Everlast
Aluminium Roofing & Structurals

Nothing lasts as long as Everlast

Everlast, the leader in aluminium roofing sheets in India, is a brand from the House of Hindalco – a flagship company of the Aditya Birla Group. Hindalco's commitment to quality and service, backed by an extensive infrastructure, has made Everlast Aluminium Roofing Sheets the ideal solution to diverse roofing needs.

To add value to the roof over your house and give it a new level of strength and durability, Everlast now introduces **Everlast Aluminium Roofing Structural.**

Specially-engineered roofing support for your house

Everlast Aluminium Roofing Structural are made from carefully-designed and engineered special high-strength aluminium alloy to suit various applications. Choose Everlast Aluminium Roofing Structural for your house and give your roof a longer and stronger life.

Zero maintenance

Once you choose Everlast Aluminium Roofing Structural, you can rest assured it will last for years, without maintenance. These structural have excellent corrosion-resistance and remain rust-proof in almost all kinds of environments.

Rust-proof and no painting required

Being rust-proof, these structural retain their shine for years without any maintenance, and eliminate the additional expenses of painting.

Last longer than G.I.

Everlast Aluminium Roofing Structural withstand the harshest of climates for generations. When used with recommended accessories, these structural have a very long 'fit and forget' service life. Unlike the conventional G.I. structural, Everlast Aluminium Roofing Structural do not require periodic maintenance.

Look as good as new for years

Everlast Aluminium Roofing Structural enliven the atmosphere with their bright and beautiful looks. Also, they retain their shine for years, do not stain, rust, or get discoloured. Hence, these structural look as good as new for years.

Easy and fast fabrication

With Everlast Aluminium Roofing Structural, the hassles of welding at site are completely avoided. Since these structural are fastened with nuts and bolts, fabrication is much faster and easier.

High resale value

Everlast Aluminium Roofing Structural fetch a high scrap value of 60% or more. This means you continue to benefit even after years of trouble-free usage.
